**RE: Notification of Import/Export of Hazardous Waste**

Dear Ms. Carter:

In accordance with Louisiana's RCRA Memorandum of Understanding, I have enclosed copies of the following Notification of Importation Forms that were received during the month of May 2014:

✓  
Catalyst Recovery (LAD980622161) from Suncor Energy, Alberta, Canada

I have attached copies of manifests for import/export shipments from the following:

None Received

If you have any questions, please feel free to call Lee McNabb at (225) 219-3244.

Re: Form HW-2 Submittal LAD980622161 A.I. No. 28267

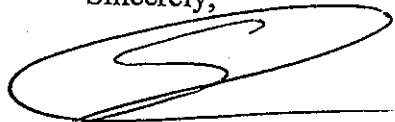

Dear Mr. Phillips:

Catalyst Recovery of Louisiana LLC (CRLA) is submitting the attached Louisiana Notification of Intent to Import Hazardous Waste Form (HW-2), pursuant to LAC 33:V.1123. This form provides notification of CRLA's intent to import from Canada approximately 3,300,000 Kg of spent hydrotreating and/or hydrorefining catalyst over the course of the next twelve months. This material will generally carry the hazardous waste code K171 or K172, and may also be characteristically hazardous for ignitability (D001), reactivity (D003), arsenic (D004), lead (D008), selenium (D010) and/or benzene (D018).

This material will be received from: *Suncor Energy Inc., Fort McMurray Refinery, AB, T9H 3E3, Canada*. This notification corresponds to Notification #530907 submitted by *Suncor Energy*. The Canadian notice has been forwarded to US EPA and has been consented to under notice #009456/4I/14.

Please contact me at (832) 688-9696 x211 if you have any questions.

Sincerely,

Shawn Thibodeaux  
Logistics Manager

RE: Notification of Intent to Import Hazardous Waste  
Catalyst Recovery of LA  
EPA ID# LAD980622161

Agency Interest No. 28267  
PER20140008

Dear Mr. Thibodeaux:

This letter is to acknowledge receipt of an NOI form (HW-2), dated April 24, 2014, from Catalyst Recovery of LA to the Louisiana Department of Environmental Quality notifying the LDEQ of Catalyst Recovery's intent to import Spent Hydrotreating/Hydr refining Catalyst from Suncor Energy Inc, Ft McMurray, Alberta, Canada. According to the NOI, this waste will be stored in a Resource Conservation and Recovery Act permitted storage facility prior to regeneration for reuse.

Based on the date of the initial receipt of waste stated in the HW-2, LDEQ acknowledges that Catalyst Recovery of LA will receive this material beginning May 30, 2014. If Catalyst Recovery of LA wishes to receive this material past May 29, 2015 another HW-2 must be submitted prior to April 29, 2015.

The LDEQ reminds Catalyst Recovery of LA of the special requirements regarding the importation of foreign hazardous waste contained in the Louisiana Administrative Code. Specific details of the requirements are contained in LAC 33:V.1123 and LAC 33:V.1125. All shipments of hazardous waste must conform to the applicable state and federal hazardous waste regulations, including transportation requirements, as well as these specific import requirements.

If further assistance is required, please contact Mr. Lee McNabb at (225) 219-3244.

Sincerely,

A handwritten signature in black ink, appearing to read "Christopher A. Mayeux".
